Subject: EnerGov - Counter closure

Dear Design Professionals:

On Thursday, June 16th, the Community Development Department will be unable to take in any applications or issue permits because we are updating our permitting software. The permitting software is being moved to the cloud, which is a big step in implementing the new system that will eventually allow for online applications and electronic permitting. The counter will still be open that day for general questions. All permitting services will be available again on Tuesday, June 21st (City Hall is closed on Friday and Monday – Juneteenth).

So Kim

Assistant Director of Community Development
